ADJUSTABLE
Display can adjust to accommodate a range of sizes.

ADJUSTABLE HEIGHT
Display can adjust to accommodate a range of banner heights.

INDOOR USE
Banners and stands are recommended for indoor usage.

OUTDOOR USE
Banners and stands are recommended for outdoor usage. Some stands feature weighted or water-filled bases for added stability.

DOUBLE-SIDED
Displays 2 banners back-to-back to enable viewing from both sides.

SINGLE-SIDED
Displays 1 banner on front side only.

TOOLLESS
Display parts assemble together without the use of tools.

MAGNET
Magnetic strips on sides of panels attach to channel bars on frame.

HOOK & LOOP
Banners attach via hook & loop strips on top and/or bottom.

CLAMP
Top and/or bottom bars clamp to banner.

HEM
Banner edges are folded over and stitched with white thread.

GROMMET
Banner edges are hemmed with #2 grommets in corners. Available grommet colors: brass, silver & black.

POLE POCKET
The top and/or bottom of the banner is folded over and sewn, creating a pocket that accepts dowels.

HOW TO ORDER
ORDER PROCESS

GRAPHIC SERVICES

HARDWARE ORDERS

1. PLACE ORDER

Choose sizes, quantity, material type and any additional options. Then shop for additional products or checkout.

Or simply call us for online assistance.

Hard Copy Proofs are available online or upon request.

GRAPHIC ORDERS

2. SUBMIT FILES

Upload your files using our upload file page after entering all shipping, billing and payment information.

3. APPROVE PROOFS

Once you submit your files, you will be able to view and approve a proof online or through your e-mail within 3-5 business hours.

4. FINALIZE ORDER & BEGIN PRODUCTION

Review order details to ensure all information is correct. Production will begin the day after graphic approval.

DESIGN & PRINT PROCESS

PDF AI PSD
⬆ UPLOAD FILES

1. SUBMIT FILES or REQUEST DESIGN SERVICES

Submit files such as your logo, photos, text, or design mock-ups through our website.

If you have nothing to start with, no problem. Let our designers help you!

2. WORK WITH A DESIGNER

Once we receive your files or design request, our designer will contact you to discuss your design needs. It takes minimum 2-4 business days to complete depending on the complexity of your design need.

3. APPROVE PROOFS

Once you approve proofs, we will send the file to production for print.

4. PRINT & PRODUCTION

Once the order is finalized, the production time will start.

Production begins the day after graphic approval. Please note that turnaround time will differ depending on the product and quantity.

* No changes or cancellations will be allowed during this stage.

* Production time starts the business day after we receive your graphic approval and payment. Please call us for accurate production time on orders with high quantity prints.

ℹ **RETURNS AND REFUNDS:** See the website for details.
PRICING: Prices are subject to change.

HOW TO PREPARE GRAPHIC FILES

If you don't have a design...

Production time starts the business day after we receive your graphic approval and payment. Please call us for accurate production time on orders with high quantity prints.

DESIGN SERVICES
Our layout services can turn your vision into a professional design. Our in-house designers have years of experience in turning our customer's ideas into trade show displays. No design? No problem.

We take care of:
• Basic to detailed typesetting & layout
• Image placement
• We will follow your mock-ups or design from scratch

DESIGN ESTIMATE
$65 PER HOUR
Estimated design time can be provided prior to the start of your project. If you need to purchase stock photographs, please contact us for pricing.
*Please call for Stock Photo prices and more information about our graphic service.

DESIGN EXAMPLES AND TIME USED
Let us show you what we have done for our customers. As you can see, the more complex the design becomes, the more design time will be required. Design time differs depending on complexity of design and the types/quality of files needed.

**EXPRESS DESIGN
(1-2 HOURS)**
• Simple layout & typesetting
• Vector-based/hi-res graphics

**CUSTOM DESIGN
(3-4 HOURS)**
• Layout & typesetting
• Simple photo editing (includes cropping and color adjusting)

**CUSTOM DESIGN
(5-7 HOURS)**
• Layout & typesetting
• Photo editing (includes cropping, color adjusting, and cloning)
• Creating vector elements

**CUSTOM DESIGN
(8-11 HOURS)**
• Layout & typesetting
• Photo editing (includes cropping, color adjusting, and cloning)
• 15+ photos used (must be provided by customer)
• Complex layered design

* Customer must supply as many images, verbiage and vector-based graphics (logo, image and text) as possible.

If you are designing...

We have graphic templates available for you to download on our website. Take the time to make sure your graphics are print-ready before you upload them to us.

CHECK POINTS

1. RIGHT DIMENSIONS?

Double-check your graphic dimensions to make sure it matches the most current template as well as product you are purchasing.

2. GOOD RESOLUTION?

In Photoshop, view your graphic at 100% scale. This is how your artwork will look when printed.

3. CMYK MODE?

Your graphic must be in CMYK mode. Colors may differ in RGB mode.

If your graphic contains critical spot colors, ask us about our PMS Color Matching Service.

Spot Colors   C M Y K LC LM

4. PROOF READING?

It is your responsibility to proof-read all your text. Please proof-read before you submit or approve your graphic file.

* We rely solely on your approval of the proof as final verification and acceptance of the project. We can not accept financial responsibility for items approved by you that may be later found in error.

WE ACCEPT FILES IN FOLLOWING FORMATS:
• Adobe Photoshop (flattened .PSD)
• Adobe Illustrator (.AI)
• Adobe Acrobat (.PDF)
• Tagged Image File Format (.TIFF)
• Encapsulated PostScript (.EPS)
• High-Resolution JPG files

Please note that any other file format will/may not be accepted by our Graphics Department.

PMS Color Match
$25.00 (per color / material)

*Printing actual PANTONE colors is NOT included.
*We cannot color match textures, gradients, tints, or shades.
*PMS Color Matching Service will add 1-2 business days to your total tunaround time.

PRINTING SERVICES

DIGITAL PRINTING COLOR INFORMATION

OFFSET VS. DIGITAL
Digital printing offers a shorter turnaround and more consistent end results than offset printing. Digital printers do not print PMS and RGB colors. These colors will have color shifts.

PMS (SPOT COLOR) MATCHING
Although digital printers do not print PMS colors, our production team will manually adjust the color output to match your spot colors upon request (per color/material). Please ask us about our PMS Color Matching service when you upload your files.

MATERIAL
Printed colors look slightly different depending on materials. Refer to the material descriptions for more information.

OUTDOOR USE
Our outdoor banners are printed with UV-safe inks to prolong the life of your banner. They are hemmed around the edges for long life and can be grommeted for easy display outside your building or event.

RE-ORDERING
If you are in need of graphics from a previous order printed by us, let us know before you approve proofs. To match colors with previously printed graphics as closely as possible, we need extra time and information from you. We typically hold files for 3-4 months. By request, we can back up files for future use.

FINISHING OPTIONS

GROMMET
Banner edges are hemmed with #2 grommets in corners.
* Available grommet colors: brass, silver & black.

Brass   Silver   Black

HEM
Banner edges are folded over and stitched with white thread.

POLE POCKET
The top and/or bottom of the banner is folded over and sewn, creating a pocket that accepts dowels.

CLAMP
Top and/or bottom bars clamp to banner.

HOOK & LOOP
Banners attach via hook & loop strips on top and/or bottom.

MAGNET
Magnetic strips on sides of panels attach to channel bars on frame.

PRINTING METHODS

THERMAL TRANSFER (HEAT PRESS)
Our thermal transfers allow 1 to 2 color images to be applied to our stock table throw and stock casita canopy products. Using thermal transfer vinyl, we die-cut and weed your image, then apply it to the stock product using a high temperature, large format heat press.
Used for: Casita Canopy Stock, Table Throw Stock, Skycap Umbrella Stock

DIGITAL INKJET LAMINATED PRINTING
Using a high resolution, 4-color process, we are able to output images up to 1080dpi onto titanium film media. Once this entire image is printed, we overlay laminate—using a cold-process laminator—for durability.
Used for: Laminated Display Film, Pop Up Wave Display

UV PRINTING
Using the 4-color process (plus light cyan and light magenta), we create weather resistant images for outdoor graphics using ultraviolet curable inks.
Used for: UV Hybrid Vinyl, UV Super Flat Vinyl, Scrim Vinyl, UV Casita Canopy, UV Backlit, PVC

DYE-SUBLIMATION
The direct-to-fabric printing process applies the ink directly to the fabric using the 4-color process. The print then goes through the sublimation process of heat-plus-time to create beautiful, photo images.
Used for: All Fabric (except UV Fabrics)
